Please Help Us Keep Us All Safe!

At Braun Dermatology & Skin Cancer Center, the health and safety of our patients and staff are always our top priorities.

In order to resume providing essential care during this COVID-19 pandemic, we ask that you abide to the following measures to ensure our safety:

- The day prior to your visit you will receive a screening call for COVID symptoms and/or exposure and to remind you wear a face covering for your appointment. Please answer these questions honestly. If you are not wearing a face covering you may be asked to reschedule your appointment
- Do not enter the office with a companion unless it is essential. Companions will be asked to wait outside the office.
- Please wait in car or outside the office until 5 minutes prior to your appointment in order to minimize patient volume in the waiting room.
- If you are an established patient and have not been seen within the calendar year:
 - Complete the following forms:
 - [Health History Form](#)
 - [Office Polices and HIPPA](#)
 - If your insurance information has changed, email a copy of your insurance card (front and back) to telederm@braundermatology.com
- If you are a new patient,
 - Complete the following forms
 - [New Patient Registration](#)
 - [Health History Form](#)
 - [Office Polices and HIPPA](#)
 - Email a copy of your photo ID and insurance card (front and back) to telederm@braundermatology.com
- If you believe your dermatological concern can be addressed virtually (acne, eczema, psoriasis, rashes, hair loss, wound checks, follow ups etc.), please schedule a telederm appointment.

NO SHOW POLICY :

If you cannot make your scheduled medical appointment, you must cancel at least 24 hours before the appointment time. Failure to do so will result in a \$55 missed appointment fee. While BD tries to send courtesy appointment reminders via email/text/phone call, it is ultimately your responsibility to remember and keep the appointment.

As a practice, we will be adhering to the following measures to aid in protecting us all:

- Temperatures of all patients and staff will be taken upon entry into clinic. If temperature is above CDC recommendation, person will be asked to leave immediately and schedule and appointment their general practitioner or the health department.
- Decreased patient and staff volume will be mandated to allow for sufficient cleaning time and allowing for social distancing within the clinic.
- Hand sanitizer, soap, paper towels, and tissues available in all reception areas and exam rooms.
- All magazines and handouts have been removed from the waiting room
